## GFR—T&S Brass Product Information

### T&S Safe-T-Link Hoses with SwiveLink

#### SwiveLink Performance Advantages

- Provides a consistent, stress-free torque-free swivel motion
- Eliminates kinking, allowing entire connector length to be used
- Optimal wall clearance, Castered appliances come out further to facilitate clean up, installation and maintenance, and may be pushed closer to the wall with out connector interference
- Allows restraining devices to be set to engage just before the connector is fully extended
- Minimum folded length
- No lock-up during use
- Allows for full gas flow
- Double sealed, and machined from steel and brass for strength
- Available factory-attached on Safe-T-Link gas connector hoses, or as separate accessories for appliance and/or gas line attachment
- In popular sizes 1/2" to 1 1/4"

#### FreeSpin performance Advantages

- 360 degree rotatable hex nut rotates completely and freely, even when tight, No more twisted hoses!
- Optimum torsional relief improves safety, increases connector life
- No more struggling with multiple fitting pieces and extra threads
- No more turning hoses to tighten fittings
- Provides efficient, full gas flow in every size
- Tapered fittings provide a tighter fit than traditional flared fittings
- Simple, easy to install
- Standard on both ends of every Safe-T-Link gas connector hose
- Available in sizes 1/2" through 1 1/4"
